

EN6990: Engineering Practice

Course Details				
Course Code:	EN6990			
Course Title:	Engineering Practice APPROVED			
Short Title:				
Course Level::	Level 6			
Valid From::	2018/2019 Sem 1			
Credits::	15			
Owner:	Engineering Technology			
Assessment Method:	Achievement			
Course Aim This course aims to provide students with a range of practical skills and an understanding of engineering principles required to machine engineering components. Exposure to these workshop skills will give the student an understanding and an underpinning knowledge of future engineering design considerations or decisions.				

CILO				
On Completion of this course, the learner will be able to				
#	Learning Outcome Description			
1	Demonstrate detailed knowledge and understanding of workshop safety including the identification and management of workshop hazards.			
2	Produce simple engineering reports in a well-structure manner.			
3	Interpret basic engineering drawings and use appropriate measuring equipment to manufacture components to a specified tolerance.			
4	Demonstrate detailed knowledge and understanding of manufacturing processes, materials and terminology.			
5	Manufacture basic engineering components using: • Hand tools • Hand Power tools • Power machines (radial drills bench presses etc) • Lathes • Milling machines • Engravers • CNC machines • MMAW (Manual metal arc welding) • GMAW (Gas metal arc welding) • GTAW (Gas Tungsten arc welding) • Hard soldering/brazing/soft soldering			

Requisites	
No requisites	

No Examinations					
No Other Controlled Assessments					
Uncontrolled Assessments					
Assessment Type Practical Project					
Assessment Type Reflection					
Assessment Type Practical Project
